Re: Change Order #1 to Micro surfacing
IFB 11219-09

Public Works requests Commissioners' Court consideration and any action regarding Change Order # 1 to Micro Surfacing, IFB 11219-09. This change order is to extend the current contract with Viking Construction for one year effective 10/1/09 through 9/30/10.

Micro-surfacing is a contracted surfacing treatment that uses a mixture of water, asphalt, small graded aggregate and cement to fill in small voids and cracks in existing asphalt roads that require moderate repairs, resulting in 5 to 7 years of additional road cycle life. Public Works has utilized this pavement surfacing approach for several years with positive results.

Public Works has budgeted for this procedure and plans to micro-surface 10 – 15 miles of county roadway next fiscal year. The cost per mile to facilitate this procedure is approximately $10,000.00 per mile.

Should you require additional information, please contact me and I will respond accordingly.
