

The County Historical Commission is proposing a grant program to benefit local historical organizations. The commission has encumbered \$10,000 out of their current budget to fund this grant program, which will be available to any local historical group with a 501c3 designation. The commission has set up guidelines (attached) and a subcommittee to process and review applications. The subcommittee will recommend applicants to the full commission, who will then decide who to recommend to the Commissioners Court for final approval. All grant awards will be handled through the standard county procurement process (costs will be direct billed to the county and paid out of the commission's account). This program is structured extension of the commission's mission to support local historical preservation and education which initially resulted in the grant provided to the North Texas History Center for their civil war reenactment.
