Comment: From Human Resources: This new agreement requires Collin County to provide insurance coverage. Because the value of the mobile medical unit and equipment is approximately \$750,000 it will result in increased insurance premiums. The carrier will also have to agree to insure this unit. We have no information yet on the additional insurance cost. The deductible for the unit would be \$50,000 and the liability deductible is \$100,000 per person to a maximum of 3 people and \$1 million total.
