Re: Study of Mental Health Operations in Collin County

I ask that the Commissioners Court approve the attached contract with the University of North Texas to conduct a study of mental health operations in Collin County. This study will include interviewing patients, providers, law enforcement and reviews of budgets, performance goals, enrollment numbers, etc. The study will include multiple public hearings to receive input and the results will be presented directly to Commissioners Court.

UNT was selected following a RFP process conducted by the Collin County Purchasing Agent.
