

# **e-Citation/Mobile Data Capture System for Law Enforcement Proposal**

Presented to:

**County of  
Collin, Texas**

Submitted by:

Mike McAleer  
(979) 690-2811 x101  
Brazos Technology Corporation  
P.O. Box 10713, College Station, TX 77842

Proposal Date:

February 17, 2010

Proposal is valid for 30-days from the above-listed date.

## Overview

It is our privilege to present the County of Collin with the benefits of implementing the electronic hand-held ticket writers. We welcome this opportunity to engage with the County of Collin in a successful endeavor, which will become the icon of the industry. Brazos Technology is committed to leveraging technology to optimize the performance of law enforcement, and our goal is to assure that your wants, needs and must haves are satisfied while performing above and beyond your expectations of a vendor.

This proposal outlines the hardware, software and resources needed to implement Brazos Technology's e-citation solution, with its inherent advantages, which will empower the department to be technologically innovative as your needs evolve. It also provides budgetary costs and outlines the next steps and assumptions in moving forward.

Thank you for your consideration. We encourage an interactive decision process, which will allow us to answer your questions and provide clarity to ensure that you are confident in making an informed decision.

## Assumptions

The following are assumptions on which the recommendations in this Proposal are based:

1. All information sources required for the mobile device are accessible through the County of Collin network or the Internet.
2. Brazos will utilize the standard Odyssey interface for the Court System.
3. Real-time NCIC/State Return queries are not required at this time. (unless indicated on page 10)
4. An active internet connection is available at the location where the synchronization device will be installed.
5. Brazos Technologies does not provide installation services for hardware to be "mounted" into vehicles.
6. Any interface costs levied by Court or RMS system providers are separate and not reflected in this proposal
