

## Dining Hall Window Shades

**Purpose:** Reduce light for PowerPoint and video presentations

**Updated Cost Estimate:** \$28,714 with installation (doubled because installation cost added)

**Justification For:**

The original intent of this camp was to support Collin County Community groups rather than making it into just a summer camp for children. Traditional YMCA summer camp is not offered rather the facility is utilized by a wide variety of community summer programs and adult groups that need a residential facility to accomplish their purpose. This is turning out to be an excellent revenue source for Adventure Camp compared to traditional summer uses of a camp facility.

- ✓ Architects assured us that presentations in the education building and dining hall would work without shades. Daytime viewing on screens is impossible to very limited during class and professional group presentations.
- ✓ The ability to block out mid-day sunlight will add to the energy efficiency of the camp in the largest buildings.
- ✓ Presently groups are taping black paper along window/wall. Eventually this will cause damage to surfaces.

## Education Building Window Shades

**Purpose:** Reduce light for PowerPoint and video presentations

**Updated Cost Estimate:** \$57,370 with installation (doubled because installation cost added)

**Justification For:**

- ✓ Architects assured us that presentations in the education building and dining hall would work without shades. Daytime viewing on screens is impossible to very limited during class and professional group presentations.
- ✓ The ability to block out mid-day sunlight will add to the energy efficiency of the camp in the largest buildings.
- ✓ Presently groups are taping black paper and garbage bags along windows/wall. Eventually this will cause damage to surfaces.
