YOU ARE DIRECTED TO MAKE THE FOLLOWING AMENDMENT TO THIS CONTRACT

Delete Clauses in Attachment B:

Section I.1. Develop customized websites for organizations such as emergency management, fire and public health, to include, but not limited to, H1N1 statistics. The interfaces will be developed in conjunction with the Fusion System team and representative users. The interfaces will be consistent with the format and operational processes of the existing Fusion System tools and data. Deliverables shall include documented processes and procedures to be received by Collin County prior to final payment and acceptance. The task descriptions for a maximum of 354 total ADB labor hours and the completion criteria must be approved by both Collin County and ADB before other task activities begin.

Section III.1b. Add capability to extract and report statistics from the structured data. Deliverables shall include documented processes and procedures to be received by Collin County prior to final payment and acceptance. ADB will not remove duplicates that may distort statistics. ADB is not responsible for inaccuracies in source agency data or converted datasets. The task description is for a maximum of 430 total ADB labor hours and the task completion criteria must be approved by both Collin County and ADB before other task activities begin.

Section III.2. Add new functionality to the vendor-developed query and visualization tools. Deliverables shall include documented processes and procedures to be received by Collin County prior to final payment and acceptance. ADB will not prepare documentation on Thetus-developed software. The task descriptions for a maximum of 440 total ADB labor hours and the task completion criteria must be approved by both Collin County and ADB before other task activities begin.

Section III.3. Add interface to geospatial product to automate and optimize the extraction of geospatial coordinates from unstructured data. Deliverables shall include documented processes and procedures to be received by Collin County prior to final payment and acceptance. CC provides and hosts Metacarta geocoding engine or other mutually agreeable geospatial product. Task does not include processing all the unstructured data. The accuracy of the results is limited to the capability of the geospatial product. The task descriptions for a maximum of 340 total ADB labor hours and the task completion criteria must be approved by both Collin County and ADB before other task activities begin.

Replace with Clauses in Attachment B:

Section I.1. Develop a customized website for School Absentee Reporting (Previously called H1N1 Statistics). The interfaces will be developed in conjunction with the Fusion System team and representative users. The interfaces will be consistent with the format and operational processes of the existing Fusion System tools and data.

Deliverables shall include documented processes and procedures to be received by Collin County prior to final payment and acceptance. The task descriptions for a maximum of 200 total ADB labor hours and the completion criteria must be approved by both Collin County and ADB before other task activities begin.

Section VI. Modify the current data interfaces to handle format changes and to map to the appropriate elements of the latest National Information Exchange Model. Deliverables shall include documented processes and procedures to be received by Collin County prior to final payment and acceptance. The task description is for a maximum of 600 total ADB labor hours and the task completion criteria must be approved by both Collin County and ADB before other task activities begin.

Section VII. Implement the Transcription and Translation Concept of Operations which may include automation of the data transfers and adding an administrator's user interface. Deliverables shall include documented processes and procedures to be received by Collin County prior to final payment and acceptance. The task description is for a maximum of 270 total ADB labor hours and the task completion criteria must be approved by both Collin County and ADB before other task activities begin.

Section VIII. Handle registrations, training, and recordkeeping; coordination with data providing agencies; and Tier II helpdesk (responses requiring more than 30 minutes) support for three months. It is assumed that during this time, ADB will transfer these functions to Collin County IT as part of tasks I.3, II.1, and II.3. After the three months, ADB will continue to support Collin County IT as needed as part of task II.3. Deliverables shall include documented processes and procedures to be received by Collin County prior to final payment and acceptance. The task description is for a maximum of 340 total ADB labor hours and the task completion criteria must be approved by both Collin County and ADB before other task activities begin.

Section IX. Implement alerting dashboard for Sheriff's Office. Implement an alerting dashboard for the Sheriff's Office. The interface will be developed in conjunction with the Fusion System team and representative users. The interfaces will be consistent with the format and operational processes of the existing Fusion System tools and data. Deliverables shall include documented processes and procedures to be received by Collin County prior to final payment and acceptance. The task descriptions for a maximum of 154 total ADB labor hours and the completion criteria must be approved by both Collin County and ADB before other task activities begin.

---

Changes will not change contract dollar amount or level-of-effort hours. Except as provided and effect herein, all terms and conditions of the contract remain in full force and may only be modified in writing signed by both parties.
