The simple, economical, on-site alternative.

Advance Exchange Service Program Description

Advance Exchange and Advance Exchange Plus are service programs designed to provide a replacement scanner prior to the return to Fujitsu of the defective scanner. Advance Exchange service is available for all Workgroup, Departmental and Low-Volume scanners (excluding the *fi-5750C*). Advance Exchange upgrades the Standard Limited Warranty to 12-months of coverage. Advance Exchange Plus is available in the post-warranty period and can be purchased in single or multiple 12-month increments. Where applicable, post-warranty point-of-sale discount must be purchased within 90 days or scanner purchase.

Unit Exchange Service — Exchange service includes spare parts, labor and round-trip shipping for verified hardware failures. Service is available across the United States. Service will be provided between 8 a.m. and 5 p.m. PST, Monday through Friday (excluding holidays). Exchange service does not include preventative maintenance, consumables and cleaning materials, troubleshooting of software configuration, applications or set-up. The replacement unit, including packing and shipping instructions, will be shipped directly to Customer prior to Customer shipping the defective scanner back to Fujitsu. The replacement scanner will be delivered the next business day if the replacement order is received before 2:00 p.m. PST (Pacific Standard Time). Otherwise the replacement scanner will be shipped the next business day.

Obtaining Service — In the event of a hardware failure, Technical Assistance Center (TAC) will assist the Customer in resolving the problem over the telephone. Customer must provide TAC with the product model number, part number, serial number and a description of the problem. Customer may be asked to run some simple, self-diagnostic tests and report the resulting status and error code messages. This will assist TAC in determining if the problem is the scanner or another component of Customer's system and if the problem can be resolved over the telephone. After TAC verifies a hardware problem, a service call will be initiated. TAC will issue a Return Material Authorization ("RMA") number and authorize shipment of a replacement unit.

The Fujitsu logo consists of the word "FUJITSU" in a bold, red, sans-serif font, with a stylized infinity symbol above the letter 'i'.

Advance Exchange

Service Program Description

Return of Defective Scanner — The defective scanner must be returned to Fujitsu within ten (10) days after receipt of the replacement scanner or Customer will be billed at the current list price of the replacement scanner. The defective product must be returned using the packing and shipping instructions and the box and packaging in which the replacement scanner was shipped. The RMA number must be clearly marked on the outside of the box to ensure proper receipt and credit of your defective scanner.

No Trouble Found / Excluded Returns — If upon inspection of the defective scanner it is determined that the scanner is not defective, Customer will be billed by Fujitsu at the then current “No Trouble Found” (NTF) charge for that scanner. If upon inspection of the defective scanner it is determined that the problem is caused by user maintainable items (consumables), Customer will be billed by Fujitsu at the then current NTF charge for that scanner plus applicable consumables.

Term — The term of this service offering shall be one year from the date of service purchase with activation card or receipt of signed FCPA Service Contract Quotation or Purchase Order.

Warranty — Fujitsu warrants that all services will be performed in a professional manner. See Fujitsu Service Terms and Conditions.

Services Not Covered — Service does not include the following:

- ▶ Electrical work external to the product, repair or replacement of product or increased service time required due to casualty, accident, damage, acts of God, transportation, missing parts, neglect, misuse or abuse, operator error, failure of proper management or supervision, unsuitable physical operating environment, use of supplies or accessories not approved by FCPA or its Authorized Service Provider.
- ▶ Service in connection with the installation, discontinuance or removal of the product.
- ▶ Any service and/or parts replacement resulting from fraud, tampering, misuse or the uses of counterfeit components, assemblies or modules.
- ▶ Accessories or missing parts, supplies, consumables and expendable items, or problems caused by those items identified as being the user’s responsibility in the Periodic Routine Maintenance chapter of the User’s Manual, nor does it cover relocation services, systems engineering services, programming, reinstallation of user operating systems or applications software, reconstruction of data, operational procedures due to any sort of failure to implement the most current software releases.

Value-oriented peace of mind.

Basic Service Program Description

Basic and Basic Plus provide on-site service for Fujitsu scanner customers. Basic upgrades the Standard Limited Warranty to 12-months of on-site service. Basic Plus is available in the post-warranty period and can be purchased in single or multiple 12-month increments. Co-terminous (monthly) service is also available (certain restrictions apply).

On-site Service — On-site repair service includes spare parts, labor and travel for verified hardware failures. Select either Next Business Day (NBD) or 4-hour Response time (contract prices vary). Service is available across the United States, except certain Hawaiian Islands and areas of Alaska. On-site service is performed by a Fujitsu Authorized Field Service Engineer (FAFSE), either a Fujitsu employee or professionally trained Authorized Service Provider. Service will be provided between 8 a.m. and 5 p.m. local time, Monday through Friday (excluding holidays). On-site service outside the hours specified above may be available for rates and terms then in effect. Outside of PM events, on-site visits do not include preventative maintenance, maintenance training, consumables and cleaning materials, troubleshooting of software configuration, applications or set-up.

ScanCare

Service Program Description

Consumables Kits — Each ScanCare maintenance program includes automatic delivery of a consumable kit to the end-user site.

Note: The Consumable kits provided during the contract term contains quantities of consumables required for cleaning and maintenance care of the Product based on normal use. Should Customer require additional consumables, ScanAid kits may be purchased from a Fujitsu reseller, Fujitsu service sales or BuyFCPA.com.

User Training — During the first Preventative Maintenance visit a FAFSE will come on-site to provide Customer with operator training on routine scanner maintenance, consumables replacement, scanner features and basic scanner operation and troubleshooting.

Obtaining Service — In the event of a hardware failure, Technical Assistance Center (TAC) will assist the Customer in resolving the problem over the telephone. Customer must provide TAC with the product model number, part number, serial number and a description of the problem. Customer may be asked to run some simple, self-diagnostic tests and report the resulting status and error code messages. This will assist TAC in determining if the problem is the scanner or another component of Customer's system and if the problem can be resolved over the telephone.
