Re: Advertise for Bids  
Road Materials, Hot Mix Asphaltic Concrete (03220-10)

Public Works requests Commissioners' Court consideration and any action to advertise for bids: Road Materials, Hot Mix Asphaltic Concrete (03220-10).

Our current hot mixed asphalt concrete (HMAC) contractor (Austin Asphalt of Dallas, Texas) is limited to supplying HMAC from their Dallas (Walnut Hill Lane and I-35) and Prosper plants. Travel time from both Austin plants to maintenance tasks on the east, south and north areas results in lost man and equipment hours and is not conducive to efficient maintenance operations. As such, we are seeking bids for multiple contractors located closer to our maintenance needs to better serve all of Collin County.

HMAC is a year round maintenance product used to patch potholes and overlay existing roads with irregular or damaged surfaces. The county has used HMAC for the past 35+ years.

Should you require additional information, please contact me and I will respond accordingly.
