MEMO

Date: August 24, 2010
To: Commissioners Court
From: Tracy R. Homfeld, P.E., CFM; Assistant Director of Engineering
Subject: Sponsor Local Organization approval of the Supplemental Watershed Plan #VIII for the proposed rehabilitation of the Floodwater Retarding Structure (FRS) of the East Fork above Lavon (EFAL) #2A

Please see the attached Supplemental Watershed Plan #VIII for the proposed rehabilitation of the Floodwater Retarding Structure (FRS) of the East Fork above Lavon (EFAL) #2A. As a sponsoring local organization, we are asked by the Natural Resources Conservation Service (NRCS) to review the plan and provide comments. A draft copy was sent to the county in May 2010 and reviewed by the Engineering Department. We have now reviewed the attached Final plan and see no issues.

The lake is located in the city limits of McKinney and the cost share to rehab the dam will be 65% NRCS and 35% City of McKinney.

The City of McKinney will assume O&M responsibility after the rehab. The project will begin in approximately 3 years.

We request Commissioners' Court consider the Sponsor Local Organization approval of the Supplemental Watershed Plan no VIII for the proposed rehabilitation of the Floodwater Retarding Structure (FRS) of the East Fork above Lavon (EFAL) #2A and allow Judge Self to sign the plan.
