Re: Ray Dishaw

Dear Mr. Hudson:

It was a pleasure speaking to you last week.

Neither Mr. Dishaw nor I have received a letter stating the basis of the County's decision to take Mr. Dishaw's land without compensation. It was my understanding that it would also identify the date when the County intends to cut the trees. Please advise as my client will need to protect his interests in the event we are not able to amicably resolve this matter.

You and I discussed informally or formally mediating this matter. My client is agreeable but it needs to be accomplished before the date the County intends to begin cutting Mr. Dishaw's trees. Please advise.

Finally, please confirm that the County will not disturb Mr. Dishaw's property or cut his trees until at least the middle of September and please provide me with the exact date the County intends to proceed with such cutting.

Thank you and best regards.

Very truly yours,

Richard M. Abernathy
