Arthur J. Gallagher

Our success correlates directly with our commitment to understanding the unique needs of each individual customer. One size does not fit all. The key to understanding is listening. We strive to be great listeners. We also strive to innovate. The simple though often difficult discipline of listening combined with capitalism's incessant demand to innovate enabled the company to grow from a two-person organization to our present ranking as the third largest insurance broker in North America and the fourth largest in the world.

Gallagher's history since 1927 includes the pioneering of new risk management tools and concepts. Gallagher created the first self-insurance service organization (captive) addressing all lines of coverage - Property, Workers' Compensation, Auto, General and Professional Liability.

Today Arthur J. Gallagher & Co. has over 250 offices worldwide, 10,000 employees and specialty operations in London and Bermuda. We create measurable value for our customers.

SERVICE COMMITMENT

Account Service

At Arthur J. Gallagher & Co., we strive for long-term relationships. Insurance relationships begin with solid, cost-effective insurance programs, but endure because of excellent service.

We will address the day-to-day needs of your type of organization in a timely manner, and by being proactive regarding your insurance program throughout each insurance term and market cycle. In these ways, we can address your changing insurance needs.

Renewals

At each renewal, we will meet with you to establish a renewal game plan, determining how many markets should be approached, how pricing is in the insurance marketplace, and what specific needs must be addressed. We will then approach markets we feel will present the best alternatives, and present each alternative at renewal as an option, even if we still feel the incumbent program is strongest. We will demonstrate how **we have created competition** within the marketplace to ensure that you receive the best renewal terms.

We make ourselves accountable by working with you to develop a written service schedule that meets your needs. You can track our service by referring to our written service commitment. Service becomes especially important as your organization continues to change and prosper.

As a top national broker, we have access to over 150 insurance companies and wholesalers. This maximizes your insurance options in any given policy year or situation. In addition, the relationships we have cultivated with our markets are excellent. Our integrity and influence in the marketplace gives us an edge over other brokers.

These factors are especially important to consider as the insurance needs of your organization become more complex, requiring more sophisticated solutions. During the policy year, Arthur J. Gallagher & Co. will strive to provide the following service standards.

Acquisitions

- On request, we will perform an insurance due-diligence review on all prospects and acquisitions.

Profit Center Premium Allocations

- We will provide premium breakdown by entities and/or location schedule.

Automobile Identification Cards

- ID cards will be issued upon binding of coverage.

Phone Calls

- Phone calls will be returned within one working day of receipt.

Certificates of Insurance

- Certificates of Insurance will be issued within one working day of receipt.

Quarterly Account Review

- Quarterly account reviews will include review of claims, exposures, audits, and service.

Claims

- Claims will be reported to the company within one working day of receipt, and immediate acknowledgment of receipt will be sent to you.
- We will follow up with the carrier within ten working days after receipt of a claim.
- All claims exceeding incurred reserves of \$10,000 will be discussed in detail at the quarterly account review.

Collin County, Texas

- Monthly claim reports will be provided if requested.

Loss Control

- We will coordinate all loss control activities between you and the carrier. We recommend that service be provided on a quarterly basis. We will arrange loss control seminars on topics chosen by you upon request.

GALLAGHER CAPABILITIES

Gallagher realizes that advancements in technology constantly alter the way we conduct business. As evidence of this, Gallagher has made investment in and management of technology one of the company's highest priorities. When you conduct due diligence on our firm you will find consistent growth in productivity (i.e., revenue per headcount) over the past ten years. Gallagher attributes much of this productivity growth trend to its efficient investment in and evolving uses of technology. To that end, we have compiled a short list of Gallagher internal technology programs and a brief explanation of each:

Access to NCCI – Arthur J. Gallagher has a specialized access code/account set up with NCCI. All account managers and assistants are trained to use the NCCI database/website to promulgate experience modifiers.

 **Certificates Now** uses the power of the Internet to provide a practical solution to create, manage and distribute certificates of insurance. Arthur J. Gallagher or Collin County can complete certificates of insurance and their associated addenda then send the completed cert package to multiple third parties.

TrackCerts Now is the perfect turnkey solution for businesses like yours that received large numbers of certificates from vendors and suppliers. This secure Internet service will allow Collin County to request, review, organize and store an unlimited number of certificates.

 **ModMaster 2000** is used to calculate and analyze workers compensation experience rating modification factors. It helps Gallagher communicate about the experience modifier with Collin County

Gallagher Insight® provides a single web based platform from which your risk management team can work together to maintain, communicate and organize all of the different aspects of a risk management program.

 **QuickMod.com** is a web tool for analyzing the workers compensation mod worksheet. While it does not provide the in-depth analysis and exceptional handling that ModMaster does, it is valuable because it is quick, easy and portable.

Loss Forecaster II is used to forecast losses and estimate required reserves for property and casualty losses.

 **NPVision** is used to calculate and analyze the net present value of alternative loss financing methods.

IMPORTANT DISCLOSURES

The proposal is an outline of certain of the terms and conditions of the insurance proposed by the insurers, based on the information provided by your company. It does not include all the terms, coverages, exclusions, limitations, or conditions of the actual policy contract language. The insurance policies themselves must be read for those details. We will seek to bind those coverages based upon your authorization; however, we can make no warranties in respect to policy limits or coverage considerations of the carrier. Actual coverage is determined by policy language, so read all policies carefully. Contact us with questions on these or any other issues of concern.

The information contained in this proposal is based on the historical loss experience and exposures provided to Gallagher - Dallas. This proposal is not an actuarial study. Should you wish to have this proposal reviewed by an independent actuary, we will be pleased to provide you with a listing of actuaries for your use.

Compensation Disclosure

One of the core values highlighted in The Gallagher Way states, "We are an Open Society," and our open society extends to the compensation Gallagher receives. For more information on Gallagher's compensation arrangements, please visit <http://www.ajg.com/compdisclosure>. In general, Gallagher may be compensated as follows:

1. Gallagher Companies are primarily compensated from the usual and customary commissions or fees received from the brokerage and servicing of insurance policies, annuity contracts, guarantee contracts and surety bonds (collectively "insurance coverages") handled for a client's account, which such commissions and fees may vary from company to company and insurance coverage to insurance coverage. As permitted by law, Gallagher companies occasionally receive both commissions and fees. In placing, renewing, consulting on or servicing your insurance coverages, Gallagher Companies may participate in contingent commission arrangements with intermediaries and insurance companies that provide for additional contingent compensation if underwriting, profitability, volume or retention goals are achieved. Such goals are typically based on the total amount of certain insurance coverages placed by Gallagher with the insurance company and/or through the intermediary, not on an individual policy basis. As a result, Gallagher may be considered to have an incentive to place your insurance coverages with a particular insurance company.
2. Gallagher Companies may also receive investment income on fiduciary funds temporarily held by them, such as premiums or return premiums.
3. Gallagher Companies may access other facilities, including wholesalers, reinsurance intermediaries, captive managers, underwriting managers and others that act as intermediaries for both Gallagher and other brokers in the insurance marketplace. Gallagher Companies may own some of these facilities, in whole or in part. If such a facility was utilized in the placement of a client's account, the facility may have earned and retained customary brokerage commission or fees for its work.

Collin County, Texas

4. Gallagher assists its customers in procuring premium finance quotes and unless prohibited by law may earn compensation for this value added service.

If you have specific questions about the compensation received by Gallagher and its affiliates in relation to your insurance placements, please contact your Gallagher representative for more details. In the event you wish to register a formal complaint regarding compensation Gallagher receives from insurers or third parties, please send an e-mail to Compensation_Complaints@ajg.com or send a letter to:

CONTINGENT AND SUPPLEMENTAL COMMISSION DISCLOSURE

Effective October 1, 2009, Arthur J. Gallagher & Co., and its subsidiaries operating as insurance agents/brokers under the corporate holding company known as Arthur J. Gallagher Brokerage & Risk Management Services, LLC, resumed participating in contingent commission arrangements which are routinely offered by insurance companies and intermediaries to agents and brokers, after voluntarily foregoing the benefit of this type of compensation since January 1, 2005. Contingent commission arrangements provide for additional compensation if certain underwriting, profitability, volume or retention goals are achieved. Such goals are typically based on the total amount of certain insurance coverages placed by Gallagher with the insurance company and/or through the intermediary, not on an individual policy basis. As a result, Gallagher may be considered to have an incentive to place your insurance coverages with a particular insurance company.

During the time Gallagher's retail operations did not accept contingent commissions, some insurance markets and intermediaries, including Gallagher owned intermediaries, modified their commission schedule with Gallagher, resulting in an increase in some commission rates. The additional commissions, commonly referred to as "supplemental commissions", are known at the effective date of the policy, but some intermediaries and insurance companies are paying the commission increase apart and later from when the commission is normally paid at policy issuance.

Unlike contingent commissions, supplemental commission payments are determined **without** regard to any performance factors which are contingent on future growth, retention, profitability, etc.

Contingent and supplemental commission ranges from less than 1% up to 10% of written or earned premium on eligible lines of business (not all lines of business qualify).

NOTE: Upon request, your Gallagher representative can provide more specific market information regarding contingent and supplemental commission related to your insurance coverage.
