

NORTH TEXAS CONTRACTING, INC.

Date: March 25, 2011

Attn: Matt Dobecka, CPPB
Collin County Purchasing
Collin County Adventure Camp, Waste Water Treatment Plant, Peak Flow Addition
Solicitation 01076-11

Re: Contractor's Qualifications and Experience

Mr. Dobecka:

In regards to the Qualification of Bidders referenced in Section 00200 1.8, please see the following documentation showing North Texas Contracting's ability to meet these qualifications.

- 1) Current and Recent Projects – North Texas Contracting (NTC) has been in business since 1990 performing heavy civil construction with a primary focus on utilities and concrete. Since this time, we have performed over 300 million dollars of successful construction. Most of our work consists of pipelines, utility rehab and lift stations such as this project and the majority of our work is for municipalities, airports and educational institutions. Our firm has completed numerous lift station installation and rehabilitation projects. We are currently finishing up installation of a \$ 2,500,000 lift station project for the city of Grand Prairie. I have attached a company profile along with current and recent projects for your review. Please do not hesitate to call and check regarding any of our projects. I have also included specific references for Pump and Lift Stations completed by NTC.
- 2) Experience of Key Individuals – Attached is a descriptive Organizational Chart with Project Personnel. Also included is a flow chart with our staff's industry experience which is quite extensive. I have included resumes from the following: Vice President Zach Fusilier, Concrete Superintendent Danny Thompson, Utility Superintendent Craig Benckendorf and Utility Superintendent Mike Bradford. NTC's Equipment List is also included to show our company's ability to complete the job with our own equipment.
- 3) Trade and Bank References – NTC has included a Company Profile Sheet detailing four trade references along with our surety information. In the sealed envelope, you will find an audited financial statement. Please note that this statement is not intended for public viewing.
- 4) Costs of Work Items – These costs were included in the unit price bid that was submitted at the bid opening.
- 5) Work to be Performed by NTC/Subcontractor/Supplier:

NORTH TEXAS CONTRACTING, INC.

BASE BID				Work Performed By	Supplier
1	PACKAGED LIFT STA	1	LS	NTC	Park Environmental
2	60" POLYPRO TRIPLE WALL	1	LS	NTC	Ferguson
3	YARD PIPING	1	LS	NTC	Ferguson
4	CIP CONCRETE	10	CY	NTC	TXI
5	COPOLYMER FLAP GATES	2	EA	NTC	C.C. Lynch & Assoc.
6	DEMO, SALV, CUT & PATCH	1	LS	NTC	Ferguson
7	EROSION CONTROL	1	LS	NTC	Barnsco
8	ELECTRICAL WORK	1	LS	H&H Electrical	H&H Electrical
9	SCADA SYS UPGRADE/ CONTROLS	1	LS	H&H Electrical	H&H Electrical
10	TRENCH SAFETY PLAN	1	LS	NTC	Trentech
11	MOB	1	LS	NTC	N/A
ALT - 60" PVC PIPE					
12	SUBTRACT 60" POLY TRIPLE WALL	1	LS	NTC	N/A
13	ADD 60" CLOSED PROFILE PIPE	1	LS	NTC	Ferguson

The above statements along with the attached documentation shows North Texas Contracting's ability to meet the qualifications for this project including financial responsibility, experience and possession of equipment necessary to complete the project in an expeditious and safe manner. If there are any questions or further information needed, please do not hesitate to contact me.

Respectfully Submitted,

Natalie Gregory

NTC ORGANIZATIONAL CHART W/ PROJECT PERSONNEL

Name: Jay Louy
Job Title: President
Degree: Civil Engineering, Northern Arizona
Job Duties: Oversees all construction while handling all financial matters

Name: Zach Fusilier
Job Title: Vice President
Degree: Construction Science, University of Texas at Arlington
Job Duties: Manage company operations, contractual negotiations, estimate projects as well as overall company coordination, etc...

Name: Jarvis Ward
Job Title: Senior Project Manager/ Chief Estimator
Degree: Engineering Design, Angelina College
Job Duties: Estimate projects and handle administrative duties with project such as submittals, RFI's, payment applications, subcontractor coordination, etc...

Name: Andy Nord
Job Title: Project Manager/ Estimator
Degree: Civil Engineering, Colorado School of Mines
Job Duties: Estimate projects and handle administrative duties with project such as submittals, RFI's, payment applications, subcontractor coordination, etc...

Name: Natalie Gregory
Job Title: Project Manager/ Estimator
Degree: Construction Science, Texas A & M University
Job Duties: Estimate projects and handle administrative duties with project such as submittals, RFI's, payment applications, subcontractor coordination, etc...

Name: Danny Thompson
Job Title: Concrete General Superintendent
Job Duties: Specializes in concrete construction. Will provide technical expertise while using past experience to push the job construction pace. Manages and handles manpower for concrete placement and preparation.

Name: Victor Marshall
Job Title: Concrete Superintendent
Job Duties: Specializes in concrete construction. Will provide technical expertise while using past experience to push the job construction pace. Manages and handles manpower for concrete placement and preparation.

Name: Craig Benckendorf
Job Title: General Utility Superintendent
Job Duties: Specializes in utility construction. Will provide technical expertise while using past experience to push the job construction pace. Manages and handles manpower for utility installation.

Name: Mike Armbrust
Job Title: Utility Superintendent
Job Duties: Specializes in utility construction. Will provide technical expertise while using past experience to push the job construction pace. Manages and handles manpower for utility installation.

Name: Randy Towles
Job Title: Equipment Manager
Job Duties: Responsible for inspecting job sites for safety issues while enforcing NTC policies such as hard hats or proper grounding. Also handles equipment maintenance and coordination of NTC owned dump trucks for earthwork.

Name: Scott Hale
Job Title: General Project Manager
Job Duties: Handle administrative duties with project such as submittals, RFI's, payment applications, subcontractor coordination, etc...

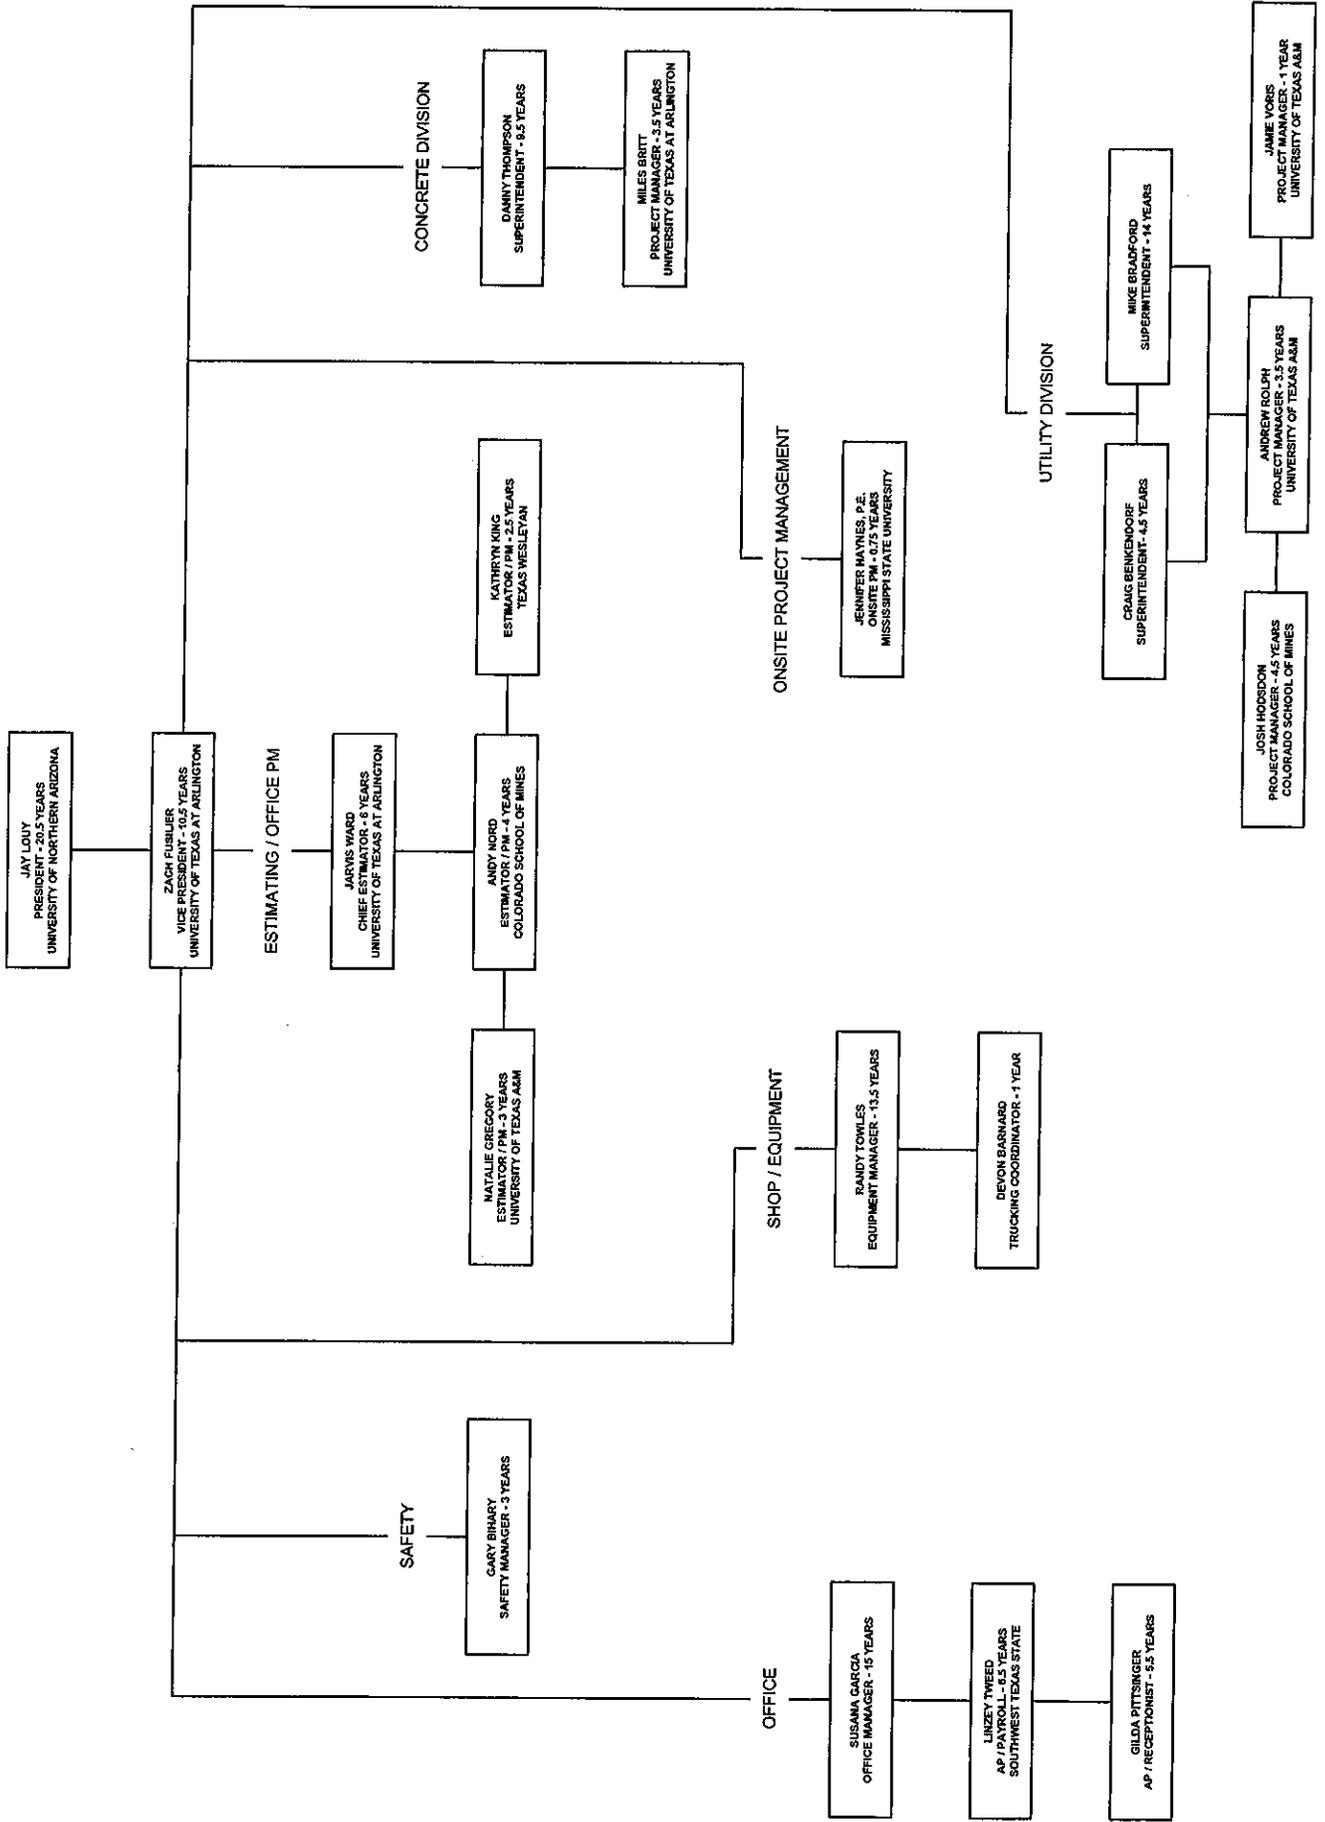

Name: Jacob Murray
Job Title: General Project Manager
Degree: Mechanical Engineering, Texas A & M University
Job Duties: Handle administrative duties with project such as submittals, RFI's, payment applications, subcontractor coordination, etc...

Name: Andrew Rolph
Job Title: Utility Project Manager
Degree: Construction Science, Texas A & M University
Job Duties: Handle administrative duties with project such as submittals, RFI's, payment applications, subcontractor coordination, etc...

Name: Josh Hodsdon
Job Title: Utility Project Manager
Degree: Civil Engineering, Colorado School of Mines
Job Duties: Monitor materials, coordinate utility schedule, main source of communication between contractor and owner.

Name: Gary Bihary
Job Title: NTC Safety Inspector
Job Duties: Ex. utility locates, trench safety plans, confined space entry permits, franchise utility coordination, PPE accountability awareness as well as all other aspects of safety, loss prevention and overall OSHA compliance.

JOB EXPERIENCE

North Texas Contracting (1999 – Current)

Vice President - Estimated and managed commercial projects ranging from \$ 100K to 12 Million. Specialized in municipal and public jobs mostly involving concrete paving, structural concrete foundation work, and utility work. Management duties included hard bid estimating, private bid negotiating, contract negotiation, submittal coordination, change order pricing, monthly payment applications, project coordination, sub-contractor management, field operation management, material and equipment tracking, and project scheduling. Have extensive experience with hand work concrete paving, lime stabilization, earthwork, demolition, utility structures, structural concrete, piers, grade beams, elevated slabs, storm sewer pipe, ductile iron utility pipe, PVC utility pipe, and steel cylinder utility pipe. Estimated and managed jobs involving civil rehabilitation (concrete & utility), new water and sewer utilities, storm drainage, new city and airport paving, utility relocations, large structural foundation for buildings, large parking areas, mass excavation work, municipal park construction, and general building construction.

Vilbig and Associates: (1997 – 1999)

Engineer & Survey Technician - Composed Plats and Boundary Topographic Survey drawings. Have been exposed to deed research, and composed drawings for the sell of property. Have experience in drainage design, civil site design, erosion control, and utility service design. Have extensive experience with Preliminary Site Evaluation Reports and feasibility studies. During this period also worked as rod man on survey crew performing construction layout and topographic and boundary surveying. Developed relationships with city officials while performing various procedures which included: deed research, filing of plats, building permits, RFI response, and construction consulting. Work in an environment with Professional Engineers, Engineers in Training, Professional Land Surveyors, and other Engineer techs.

Projects References:

- 1) **DFW AOA Utility Relocates** – Relocated fire hydrants at DFW international airport. Work involved heavy coordination with airport officials as all work was performed at night and in high security areas. Project scope included demolition and replacement of runway paving, PVC water main relocation, and fire hydrant installation. 2.5 Million, Hensel Phelps Construction, Alisha Schmitz – 972-574-1350.
- 2) **DFW MSF Civil** – Estimated and managed civil package for maintenance facility for new automated people mover. Project included 10" concrete paving, utility and duct bank work, mechanical piping, 4,500 LF 20' concrete retaining wall, as well as over 30,000 CY of earthwork. 8 Million, Hensel Phelps Construction, Lisa Hancock – 972-574-1350
- 3) **Duncanville High School** – Performed major demolition at High School eventually installing over 30,000 SY of new paving with all utilities for civil infrastructure improvements program. Over 2 million in contracts, Hunt Construction Group, Jim Monroe, 972-298-3334.
- 4) **Keller Sports Park** – Estimated and managed construction of softball sports facility. Park contained four softball fields including concessions building. Negotiated and facilitated over fifteen subcontractors performing scopes such as masonry, electrical, landscape, irrigation as well as all building trades. 2.5 million, Carter Burgess, Thomas Kramer, 817-735-6148

JAMES DANIEL THOMPSON
2565 HALL JOHNSON RD.
GRAPEVINE, TEXAS 76051
(817) 354-9836

OBJECTIVE: To be employed by an institution that holds self pride, quality of work, and cost effective production in the highest regards. Also to incorporate my experience into a motivated and dedicated work force where I can make substantial contributions to increase the profit margin per project for this institution.

EDUCATION: 1982 – 1986 Johnson County High School
Wrightsville, Georgia 31096
1987 – 1990 Georgia Community College
Studied course work relating to supervisory construction management, blue print reading, and structural and welded metal systems.

EXPERIENCE

2001 – PRESENT North Texas Contracting Inc.
4999 Keller Haslet Rd.
Keller, Texas 76248

Site and Structural Concrete General Superintendent

Responsible for overseeing and managing multiple concrete crews. Supervised large paving projects, specialized structures, and projects involving structural foundation work such as piers, slabs, grade beams, retaining walls, and elevated decks. Duties included material ordering and management, labor organization and management, pour scheduling, coordination of sub-contractors, and other administrative and field related management duties.

1996 - 2001 Thompson Industrial Contracting
Route 3 Box 1005
Wrightsville, Georgia
31096

President of Operations (Owner – Self Employed) Specializing in Structural Concrete Installations

Personally responsible for all aspects of structural concrete small business management and construction activities. Handled all administrative duties such as estimating, project management, equipment management, and financial duties. Also handled all field management of approximately 3 crews of 15 workers each. Averaged approximately 2.6 million in revenue each year performing all types of concrete and miscellaneous concrete work.

1994 – 1996 Prime Industrial Contracting Inc.
501 Hillcrest, Macon GA, 31201

Structural Concrete General Supt.

1993 - 1994 Mills Industrial Contracting
221 Main St. Toombsboro, GA 31090

Structural Concrete Supt.

1987 - 1993 B.E.& K. CONSTRUCTION
2000 International Park, Park Drive
Birmingham, AL

Concrete Foreman

ADDITIONAL TRAINING & CERTIFICATIONS:

- Hazmat Certification and 40-hour course – Certification attained in an accredited course sponsored by Marco Environmental in January 2000, and updated yearly.
- OSHA Certification – In March 2000, and underwent re-certification The sponsoring body being, DFW airport officials in November 2001.
- A.O.A.& PCIP 40 hour trained at DFW Airport
- Trench Safety / Competent Person current as of 2004
- CPR trained and certified
- Operator (Track Excavator, Dozer, Loader, Skid Steer, & Back Hoe)
- Certified Rodbuster
- Certified Iron Worker
- Certified Carpenter
- Concrete Finisher (Structural & Flatwork)
- Block Masonry and Stone Masonry
- Certified structural welder
- Competent person and trench safety instructed by United Rentals

OBJECTIVE: To participate in a team environment where my extensive experience can be utilized to obtain profitability and growth.

JOB EXPERIENCE

North Texas Contracting (2006 – Current)

Quality Control Manager / General Superintendent – Supervise and manage heavy civil projects ranging from \$ 100K to 10 Million in size. Specializes in municipal and public jobs mostly involving general contracting, building rehabilitation, structural and site concrete, and major underground utility work. Management duties included quality control, supervision and organization of approximately 15 underground utility crews, material acquisition and tracking, submittal coordination, change order pricing, monthly payment applications, project coordination, sub-contractor management, field operation management, equipment tracking, and project scheduling. Have extensive experience with concrete paving, lime stabilization, earthwork, demolition, utility structures, structural concrete, piers, grade beams, elevated slabs, storm sewer pipe, ductile iron utility pipe, PVC utility pipe, fiberglass sewer, mortar lined steel pipe, and steel cylinder utility pipe. Managed jobs involving new building construction, rehabilitating existing buildings, civil rehabilitation (concrete & utility), new water and sewer utilities, storm drainage, new city and airport paving, utility relocations, large structural foundation for buildings, large parking areas, mass excavation work, municipal park construction, and multi-family building construction.

Barson Utilities (2004 – 2006)

Superintendent – Responsible for management of 10 civil underground utility crews focusing mostly on inner-city rehabilitation and trunk water main projects. Managed multiple projects for the City of Dallas while installing 5 million dollar 48" water pipeline for the City of Keller / Southlake.

SJ Louis of Texas (1994 – 2004)

General Superintendent / Project Manager – Coordinated multiple utility crews with work that involved mostly large diameter pipelines in excess of 120" diameter pipe. Specialized in deep trunk sewer mains involving fiberglass, lined RCP or heavy wall PVC pipe materials. Installed over 250,000 LF of civil utilities mostly for public entities.

Pate Brothers Construction (1989 – 1994)

Project Manager – Assisted superintendents with duties such as payment applications, scheduling, submittals, testing, change orders as well as other duties associated with heavy civil construction. Responsible for multiple projects ranging from 250K to 5 million in size.

Projects References:

- 1) **Dexham Road** – Installed 5,000 LF of 36" Hobas Storm sewer and 5,000 LF of 12" PVC water line for the City of Rowlett. Project involved over 1,500 LF of directional bore, 400 LF of 54" Steel Cased Tunnel and excavation depths in excess of 25 vertical feet directly adjacent to a public City street. Contract total 2.3 Million, City of Rowlett, Paul Allison, Inspector – 214-733-4037.
- 2) **Plano / Dallas North Trunk Main** – Installed 4,000 LF of 30" profile wall PVC sewer for the City of Plano. Project involved 8' diameter coated manholes and excavations in excess of 20 vertical feet in solid rock. Contract total 2 Million, City of Plano, Gerald Cosgrove, Engineer – 972-941-7152
- 3) **Additional references available upon request.**

Experienced with: Microsoft Project, Primavera, Paydirt, AutoCAD R - 12, R- 13,R- 14, AutoCAD Lt. 98, TerraModel, Microsoft Word, Excel, Internet Fluent

Azle, Tx 76020

JOB EXPERIENCE

North Texas Contracting (1996 – Current)

Utility Superintendent – Oversaw six to eight utility crews performing mostly municipal projects. Managed crews specializing in smaller diameter PVC utility pipe, steel cylinder, and ductile iron pipe installation. Also, installed storm drainage pipe ranging from smaller HDPE types to large RCP and box culvert. Responsibilities included trench safety, equipment coordination and scheduling, coordination with owner / general contractor, change order documentation, project master planning, and actual supervision of pipe installation. Worked on projects such as new school construction, city rehabilitation, state paving projects, new municipal utilities, housing sub-division utilities, and DFW International Airport utility installation.

S.J. Lewis Co: (1992 – 1996)

Utility Foreman – Supervised two utility crews consisting of seven employees each while installing over 8,000 linear feet of new steel cylinder water pipe. Project duties included material purchasing and ordering, technical supervision, sub-contractor coordination, and crew employee management. Other projects completed involved large diameter sanitary sewer installed to depths in excess of 30' deep.

ITEX Inc.: (1990 – 1992)

Working Foreman – Worked at the Texaco Refinery in Port Arthur, Texas. Duties included scheduling and coordination of hazardous material clean up and containment. Supervised operations and removal of contaminated materials from refinery to off site containment site. Received training in hazardous materials and extensive safety operational procedures.

Professional References:

- 1) George King – Austin Commercial – 512-970-8580 – Supervisor on Terminal D project at DFW international Airport
- 2) Nelson Mitchell – Tiseo Paving – 469-446-0645 – Project Manager for large Texas DOT paving project
- 3) Bob Comer – Hensel Phelps Construction – 972-574-1350 – Superintendent – Automated People Mover Project at DFW International Airport.
- 4) Jay Dunton – 214-538-1153 – DFW International Airport Code – Chief Code Inspector on all Airport new utility construction.
- 5) Loni Baker – Granite Construction Co. – Project Manager – DFW International Airport Handstand Relocation Project
- 6) Zach Fusilier – North Texas Contracting – Vice President – Supervised field operations for utility projects

Miscellaneous Experience: Track Hoe Operation, Dozer Operation, Back Hoe Operation, Concrete Replacement, Utility Structures, PVC Utility Pipe, Ductile Iron Utility Pipe, Cathodic Protection, Fire Hydrant Installation, Utility Testing, RCP Storm Drainage Pipe, HDPE Storm Drainage Pipe, Gly-Col Fused Pipe, Sanitary Sewer Force Main, Lift Station Construction, Utility Boring, Steel Cylinder Utility Pipe, Pre-Cast Box Culvert, Cast-in-Place Box Culvert, and Large Pumps and Sump Assemblies.

5,000 LF of gravity sewer & force main
Extensive shoring system required for both lift stations
Substantial pump and generator package by ITT Flygt

Project Name: Verandah Lift Station
Owner: Verandah Water District / City of Royse City
Contract Amount: \$700,374.00
Location: Royse City, TX

Description: This project involved the installation of a 14' square wet-well that had an approximate depth of 35'.
Substantial pump package manufactured by ITT Flygt

Project Name: TRA Jefferson Avenue Siphon
Owner: Trinity River Authority
Contract Amount: \$1,050,000.00
Location: Dallas, TX

Description: 72", 42" & 24" Hobas Sanitary Sewer
Major creek crossing with extensive By-pass pumping of 72" live sewer.
30' deep CIP concrete junction / siphon structure.

Project Name: Valwood Lift Station
Owner: City of Farmers Branch
Contract Amount: \$186,000.00
Location: Farmers Branch, TX

Description: This project involved the installation of a 5' diameter manhole at a depth of 20'. Pump package was supplied by ITT Flygt. Please feel to contact Randy Walhood, City Engineer, regarding this project. (972-919-2589).

Project Name: GPSID – Student Activity Center
ISD / Owner: Grand Prairie ISD
Contract Amount: 2,500,000.00
Location: Grand Prairie, TX

Description: This project involved the construction of a new activity centers for North Grand Prairie and South Grand Prairie High Schools. Lincoln Builders was selected as the General Contractor who awarded the contract for the site utilities and the turnkey concrete to NTC. This was a very large project with work that included a Pre-fabricated lift station supplied by ITT Flygt along with substantial storm sewer system, concrete piers, foundation, site paving and architectural concrete. Please feel free to contact James Sandifer of Lincoln Builders regarding this project. (817-232-8245 ext. 302)

Project Name: Beltline Emergency Repair
Owner: City of Grand Prairie
Contract Amount: \$2,030,000.00
Location: Grand Prairie, TX

Description: This project involved the removal of collapsed 32" triple barrel corrugated metal piping and the installation of triple barrel 78" Class IV Reinforced Concrete Piping while keeping Beltline Road open. NTC completed the project within 44 day and received the

Project Name: Dexham Road
Owner: City of Rowlett
Contract Amount: \$2,400,000.00
Location: Rowlett, TX

Description: This project involved the installation of 5,000 of Hobas pipe material to an abandoned lift station. The pipe average 25' in depth and involved by-pass pumping. NTC tied into a new lift station while abandoning an existing lift station.

Project Name: DFW Hanger Drainage
Owner: DFW Airport
Contract Amount: \$8,600,000.00
Location: DFW Airport

Description: This project involved 13,000' of sanitary sewer line installation under DFW pavement. It also included at 27' deep lift station that utilized pumps supplied by ITT Flygt. Entire project was performed inside the AOA (high security area) of the DFW Airport. Please feel free to contact Jim Cottle, Chief Inspector of DFW Airport regarding this project at (817-907-1471).

Project Name: DFW Triturator Replacement at Pad Mary (Fueling Station)
Owner: DFW Airport
Contract Amount: \$967,000.00
Location: DFW Airport

Description: This project involved the full upgrade and replacement of existing triturator, which is the disposal site in which the airport disposes of the sanitary sewer waste from the airplanes. This project included two concrete wet wells, four pumps supplied by Pump Solutions, and a cast in place stainless steel lined dumping pit. Please feel free to contact Jim Cottle, Chief Inspector of DFW Airport regarding this project at (817-907-1471).
