Fax (972) 548-4747

**DATE:** May 6, 2011  
**TO:** Commissioners' Court  
**FROM:** Kelley Stone, Director of Homeland Security  
**REF:** YHD SoftWare Pilot Program

---

We are requesting court approval to accept a pilot program system with YHD Software. This is a pilot program project to be used by the North Central Texas Fusion Center for a minimum of six (6) months with a twelve (12) month maximum duration. YHD SoftWare is an intelligence management system that will bring new advanced technology solutions to our fusion center.

YHD will provide a license to NCTFC for the use of its enterprise technology solutions for field testing at no cost to Collin County. This project requires no additional equipment as it is entirely web based. The Collin County IT Department will have minimum involvement. IT Director, Caren Skipworth, has been briefed and supports this implementation.

Your consideration to this item will be appreciated.
