Re: Public Works RFP Reject Authorization

Upon initial review of RFP submittals received for Software & Implementation for Public Works, RFP No. 01097-11, the committee has determined that the specification was unclear, and as a result, the committee is not able to properly evaluate the submittals any further. It will be the recommendation of the evaluation committee to Commissioners' Court that, in the best interest of the County, all proposals received on May 19, 2011 be rejected and the RFP be released again with some slight revisions.

Should you require additional information, please contact me and I will respond accordingly.
