Dear Commissioners' Court,

I would like to move forward with the Preservation Project and I am recommending that Option B, the Disaster Safe binders, be chosen. While Option A, the archival binders, would be better than doing nothing toward preservation (and are a little less expensive), the Disaster Binders will protect the documents from fire and flood, and assure the preservation of the history of the Collin County District Courts that are contained in these books.

Thank you,

Patricia W. Crigger
