---

DATE: June 13, 2011  
TO: Commissioners Court  
FROM: Tracy R. Homfeld, P.E. CFM; Assistant Director of Engineering  
RE: Authorization to Award a Contract for the Construction at CR 408 at Bomars Branch (Bond Project No 07-102) (Location Map Attached)

---

The Project will consist of replacing the 2 structures at CR 408 at Bomars Branch with box culverts. In conjunction with the bridge replacements the roadway from Remembrance Lane to the road bend will be shifted north and straightened to accommodate the future road widening and to remove part of the curve along CR 408.

The Engineering Department requests Commissioners Court's authorization to award a contract in the amount of \$642,241.10 to Jeske Construction Company for the construction mentioned above. They are the lowest and best qualified bidder based on our engineer's evaluation of the bids and contractor qualifications.

A transfer of available funds from 07-00-00, Contingency, is requested to cover the cost of construction and testing.

It is anticipated that construction will begin in late July 2011 or early August 2011 with substantial completion by February 2012. We will be available to answer any questions you might have.
