Judge,

We are placing the cancellation of the cafeteria contract on the 7/9 agenda. They've missed opening on time within the last week and the customer complaints continue to roll in. We previously gave them a warning letter and they did not comply

Our concern is that there could be problems if they see the cancellation on the agenda. We'd rather lock them out than kick them out.

I'd like for you to preapprove the cancellation and have court ratify your decision. We'll also go ahead and solicit a new vendor via RFP on the 7/9 agenda.

Let me know if you approve.

Bill
