Re: NSI Project

Homeland Security and the Information Technology department are requesting approval to use NSI for Nationwide Suspicious Activity Reporting (SAR). NSI will be purchasing the hardware for this project and Collin will be purchasing the Microsoft license. NSI will reimburse Collin County for the Microsoft license since Collin County owns the Microsoft agreement. This system will run and operate in the Collin County IT Data Center. Total cost for NSI will be \$24,750.00 with 3 year maintenance.
