RE FYI Notification of Change Order #4
IFB 12075-12

Change order #4 to install electro-mechanical totalizers (total of 4) in the new dispensers at Farmersville and the Service Center. The electro-mechanical type will provide us the information necessary for TCEQ daily reconciliation, even in the event of a power failure.

The digital totalizers which were part of the original equipment installation will zero out in the event of a power failure and therefore, we lose information critical to meeting TCEQ requirements.
