Re: Amendment to the Sungard Public Sector Software License/Services Agreement

The ERP Steering Committee has recommended the approval of an amendment to the Sungard Public Sector Software License and Services agreement to include additional modules for OneSolution Code Compliance, GovNow Suite, Work Management, and Community Suite. These modules will provide functionality for County Development, Engineering, Animal Shelter, Facilities, and Public Works Departments. These agreement changes covering the additional software modules for this project are not to exceed \$245,083.00. This will move the remaining AS/400 H.T.E. modules in order to support the decommissioning of the AS/400 in December 2013.

The Committee also requested **removal** of the STR Fax Solution in the amount of \$25,560.00 from the vendor agreement. The STR Fax/Email solution will be handled in a separate project from the Sungard agreement.
