**Re:** Tyler Data Exchange Participation Agreement with Other Governmental Justice Agencies

---

This request is for approval of the Tyler Data Exchange Agreement. Approval of this agreement will enhance our long-term vision of sharing tier one and two data between government-to-government agencies for the Collin County District Clerk, County Clerk, Justice of the Peace and Sheriff Office/Jail. This is part of the CUC CIJS Tech Share initiative with all the Counties participating in the Odyssey system. Currently we have 20 Counties engaged.

An example of how this agreement could benefit Collin County and other participating entities: A Denton County Judge handling a case could be notified via a software alert that the party has activity with Collin County. The Denton County Judge can review tier one data and then request tier two data with the provided contacts associated with each participating department, thereby aiding in a more informed decision making process.

There are no costs associated with this agreement.
