ONEOK Sterling III Pipeline Project

Dear Mr. Cook,

ONEOK Partners is requesting permission to construct 16 inch diameter natural gas liquids¹ pipeline across and under the County Roads list below which are located in Collin County, Texas as follows:

Proposed ONEOK Pipeline road crossings in Collin County

Collin	CO0001.01	CR 1202
Collin	CO0013.01	CR 580
Collin	CO0033.01	CR 627
Collin	CO0035.01	CR 825
Collin	CO0037.03	CR 623
Collin	CO0039.02	Branch Lane
Collin	CO0040.02	CR 622
Collin	CO0046.01	CR 618
Collin	CO0049.01	CR 662
Collin	CO0051.01	CR 662
Collin	CO0057.01	CR 660
Collin	CO0077.01	Private Road 5101
Collin	CO0079.01	CR 700
Collin	CO0090.02	CR 656

¹ All roads to be bored.

RIGHT OF WAY CONSULTANT TO ONEOK

Field Office: 4150 I-30 East, Caddo Mills, TX 75135

Telephone: (903) 527-4252

Fax: (903) 527-4541

Site location map and construction sketches are enclosed. The construction sketch details the proposed work.

The typical crossing specifications are as follows:

1. 16" NGL pipeline with a maximum operating pressure of 1440 PSI.
2. Pipe is steel with a wall thickness of 0.344"
3. All crossings to be bored.
4. All crossings are located via Lat. /Long for EMS and County GPS purposes.

I have included in this package the ONEOK Pamphlet with general information on the project and an overall map of the project.

If you have any questions, please contact Right-of Way Agent, George P. Kmetz at 903-527-4252 or cell: 772- 453-3062

Sincerely

George P. Kmetz

RE: Seaway Crude Pipeline Company
Proposed 30-Inch Pipeline
Collin County Road Crossings

Dear Mr. Cook:

On behalf of Seaway Crude Pipeline Company LLC, I am seeking to obtain the necessary permits for the installation of a 30-inch pipeline through a portion of Collin County. The proposed pipeline will cross the county roads identified below.

CR 584	CR 622	CR 811	CR 603	CR 592
CR 579	CR 619	CR 611	CR 566	CR 590
CR 580	CR 614	CR 558	CR 594	CR 588/Birch Street
CR 825	CR 613	CR 605	CR 913	CR 630
CR 1028	CR 595			

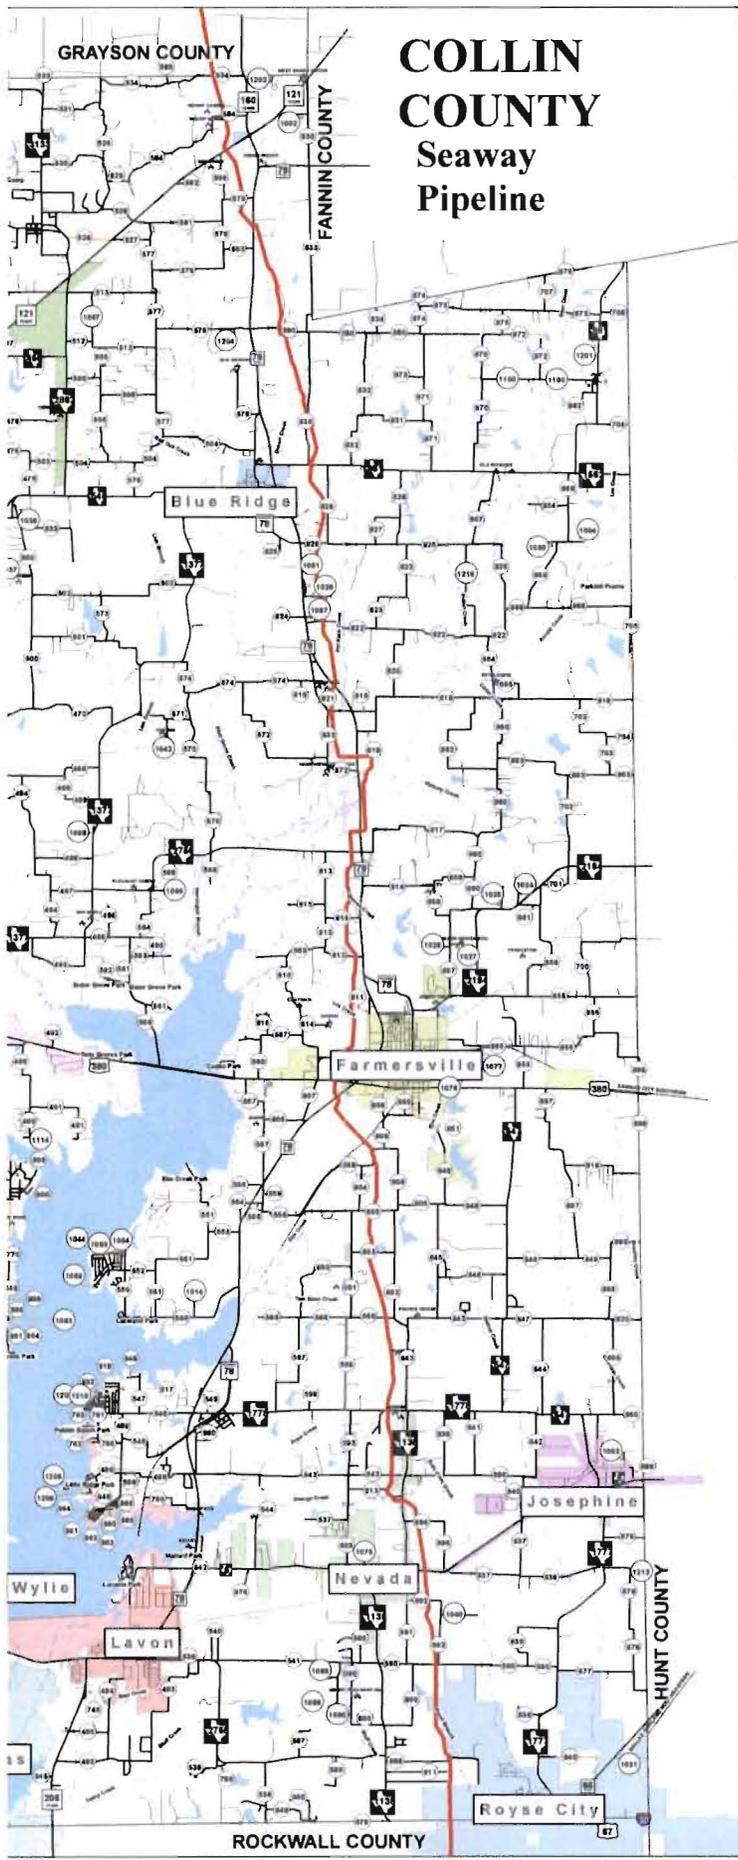

The proposed pipeline will be installed via bore method a minimum depth of 5 feet below the centerline of the roadway and a minimum depth of 4 feet below the centerline of the roadside ditches. In lieu of casing, the carrier pipe within the right-of-way will be superior to the carrier pipe outside of the right-of-way by being of a greater wall thickness, as noted on the enclosed permit drawings.

If any additional information is required, please do not hesitate to contact me at (985) 853-3969 or at mtaylor@mphinc.com. Please send any correspondence to me at the Houma, Louisiana address above.

Sincerely,

Marie Taylor
Environmental Project Manager
