

May 31, 2013

To Whom it May Concern;

On May 13, 2013, Associated Supply Company (ASCO Equipment) became the equipment dealer for North/East and South/East Texas, having purchased the assets of Hi-Way Equipment through a bankruptcy court. The product lines represented are Case Construction plus various associated products including Arrow-Master. With this acquisition, ASCO Equipment assumed the in-process business of Hi-Way Equipment. This will require a name change on various contracts from Hi-Way Equipment to ASCO Equipment.

ASCO Equipment is fulfilling all equipment orders issued to Hi-Way Equipment and this name change is necessary to complete the billing process after delivery.

If you require any other information, please let me know.

Sincerely;

Jim Rose
