RE: CR 398

To Whom It May Concern:

Princeton ISD supports the paving of CR 398. We have received numerous complaints regarding the safety and the constant dust from CR 398. The dust from the road even blows into the playground area while the children are at recess. Paving CR 398 would improve our ability to safely transport the children and also reduce wear and tear on our buses.

Thank you for your consideration.

Philip Anthony,
Superintendent
