Jen,

Pictures attached. The "markers" are a t-post and a broom handle, both painted red.

Thank you,

Wayne Anderson

Thanks for letting me know. Send all the information to me, including pictures, so I can respond to Mr. Hesley.

Thank you,

Jennifer Koerber-Miller

Jen,

FYI-

I received a call from a Kevin Hesley. He said he hit another vehicle while avoiding a post that was placed to mark an erosion area on a culvert towards the west end of CR 398, south of Princeton. It was determined that the post is not a county installed post, based on his description of it being a large post painted red. Our markers are white fiberglass with a yellow reflective sticker at the top. I have sent an inspector to the area to locate the post/culvert and take pictures. Mr. Hesley wants the county to pay for his damaged mirror.

Thank you,

Wayne Anderson

Subject: CR 398 Project rd.

FYI,

Linda Pollaehn called May 23, 2013 and was asking about the upgrading of CR 398 from rock to asphalt this summer. She is concerned with the road being too narrow on the west end, with the increase in traffic during the school season.

Mrs. Pollaehn's home address is 6948 County Rd. 398, and she is very anxious to see work begin to make their road safer.

Greg~

They now installed another fence, directly in front of a culvert system that needs to be replaced!

Jon

Jon, these residents did it again. They are putting up fences to block our construction.

Gary, I went to cr. 398 today 5-21-13 and noticed the Elsbury's had put up a new section of fence across the end of the tank cars we are going to replace.
