1. Do you currently have other active contracts with DFPS or any other entity either within or outside of Texas [federal, state (ISD, University), county, private business]?

Yes No

If yes, please provide the contract number and indicate which of the following payment types is utilized for the contract:

Fixed Price	Contract is for a firm fixed price. Payments are not affected by contractor actual costs.
Cost Reimbursement	Contractor is reimbursed for allowable costs.
Fee For Service	Contractor is paid a set fee per unit of service. Typically rates are negotiated with the individual vendor and may apply only to that vendor. An independent rate setting process does not exist for the contracted service.
Rate Based Payments	Contractor is paid at a pre-determined rate or fee per unit of service, which was established through a rate setting process. The rate setting process typically applies to multiple contractors who provide the service.
Blended Foster Care Rate	The blended foster care rate is the HHSC -developed rate equal to the weighted average rate across all placement types that DFPS pays under a Single Source Continuum Contract for each day of service provided to a child or youth in paid foster care.
Blended Foster Care Case Rate	The blended foster care case rate is the rate paid under a Single Source Continuum Contract for each day of service provided to each child or youth as measured against an established length of stay baseline formulated by HHSC for each defined age category or "strata" of children/youth.
Exceptional Foster Care Rate	An exceptional foster care rate applies to a limited number of situations and/or days under a Single Source Continuum Contract where a child requires extraordinary care. The exceptional foster care rate is developed using historical costs of delivering similar services, where appropriate data are available, and estimating the basic types of costs of products and services necessary to deliver services meeting federal and state requirements.
Other	Any other payment type not defined above.
