Re: Award of Contract: Road Materials, Cement Treated Base
IFB: 2013-194

Public Works utilizes a number of specialized materials in the course of maintaining the County's vast network of roads. One such material, Cement Treated Base (CTB), is a plant mixed, highly compacted mixture of granular aggregates, Portland cement and water. Public Works uses CTB as culvert bedding and backfill stabilization.

The County recently solicited proposals from qualified companies to supply Public Works with CTB for FY2014. Since TXI submitted the most favorable bid, Public Works requests Commissioners' Court consideration and approval to award the contract: Road Materials, Cement Treated Base to TXI.

Should you require additional information, please contact me and I will respond accordingly.
