Re: Authorization to Advertise for Bids to Re-Construct a Box Culvert on
County Road 618 at Cedar Creek - Bond Project No. 07-103
(See Location Map Attached)

The Engineering Department requests Commissioners' Courts authorization to advertise for the re-construction of a box culvert on County Road 618 at Cedar Creek.

As you might recall, our original contractor did not construct the drainage structures in accordance with the engineering plans. We were subsequently able to recover the full contract amount (\$235,614.61) from the contractor's bonding company.

If approved, we anticipate awarding a contract in June, with construction beginning in July and an estimated completion date of late September.

In addition, approval of the attached budget amendment moving the funds recovered from the bonding company from Bond Fund 432 Fund Balance to the project expenditure account is requested.

We will be available to answer any questions you might have regarding this matter.
