

Totals				
	Power 4 U	Nationwide Power Solutions	AK Solid State	Total Barrier Works
	\$ 93,720.00	\$ 121,185.00	\$ 178,685.00	\$ 190,420.90
Non-Responsive:				
Advanced Power Protection - \$58,575.00, cost did not include batteries. (Batteries alone could cost the County well over \$90,000 dollars).				
Back-Up Systems Maintenance - \$86,500.00				
1) Exclude replacing all battery modules that have more than 20. (Will not replace battery modules that have more than 20 batteries in them. Half of the County's battery modules have more than 20).				
2) Exclude replacing all battery cabinets, total of 128 big batteries, replace individual bad battery only. (Will not replace all 128 big batteries at once if needed, replace individual bad battery only).				
3) If any existing alarm on equipment, BSM will not cover existing faults. (County will have to cover cost).				
Gruber Power Services - \$93,720.00				
1) First preventive maintenance visit will serve as pre-contract inspection to validate agreement. If repairs/replacement's are necessary cost of those repairs which may include batteries, parts, labor & travel will be responsibility of customer. (Cost is in the site visit which is part of the bid. If they find any faults during the site visit, they will correct but at the the County's cost, including not only batteries, parts & labor, but travel time as well).
