Preservation Restoration Plan and Records Archive

Fiscal Year 2015

Stacey Kemp

Collin County Clerk

FY 2015 Preservation and Restoration Plan and Records Archive

Plan Summary

The purpose of this document is to define the restoration and preservation plans of the County Clerk's Office for the upcoming fiscal year. The scope of work will be ongoing for many years to preserve documents and conduct restoration activities when necessary. The ultimate goal of these efforts is to digitize permanent documents and make them readily available and useable to the public online, thus protecting the original documents. The plan is designed to comply specifically with the requirements and is the intent of Tex. Loc. Government code Section 118.011 (f) and 118.025 HB 1513. This document addresses the restoration and preservation needs of the County Clerk's records archive only.

Responsibility

The responsibility for implementing the preservation and restoration of records maintained by the County Clerk's Office will be the County Clerk and the delegated employees selected to assist the County Clerk. Final decision regarding the funding and expenditures of the plan shall be made by the County Clerk with Commissioners' Court approval.

Budget and Expenditures

Records preservation and restoration efforts are funded by revenue generated by the County Clerk's Archival Fee. The plan may be adopted by the Collin County Commissioners Court as approved by the Amendments to Texas Loc. Govt. Code 118.001 and Section 118.025 – Amendment 51.305 (b) as set by HB 1513 of the 83rd Legislature Session. The fee amount is approved by the Collin County Commissioners' Court, and itemized as part of Collin County's annual budget process. The funds generated from the collection of this fee are expended only for preservation and restoration, document indexing and records storage. It is our intent to designate all funding carried over from a previous fiscal year for expenditures to the above.

2015 Plan

In FY 2009 an elaborate inventory of all records in possession of the County Clerk's Office was conducted. The inventory identified the current record type (book, paper and film) with the desired digitized format and retention period. Records with a short retention period will not be digitized. They will be destroyed in accordance with guidelines set by the Texas State Library. As a result of the above mentioned efforts, focus in the upcoming year will be on the following:

- Restoration and preservation of Photostat books for all images and indexes from 1950 to 1984 (Real Property Records, Vital, Probate, Civil/Criminal and Miscellaneous Records). To unbind, clean, humidify, de-acidify and encapsulate in an archival polyester pocket and rebind in Disaster Safe County Binders which meet or exceed the NFPA Operating Practices ~6.12.2. All sheets will be digitally scanned and captured via Kodak Digital Science Scanners and Kodak High-Volume Capture Software and then formatted in a multi-page or single page Group 4 TIFF file. All images are to be saved in duplicate to Kodak Preservation Gold DVD-Rs.

It is intended for all preservation and restoration work to be done in the most effective techniques and practical location. Collin County will have the right to make periodic visits to the location where the records are being preserved and restored. Unsatisfactory conditions or methods will result in all work being suspended until procedures and techniques satisfactory to the County Clerk are implemented and adhered to. The cost for the second selection of books to be restored and preserved will adhere to all procurement statutes and processes.

The second selection involves approximately 2,655 books of the official public deed records to be preserved, digitized, imaged and indexed to make the records available on the web.

- Indexing of Preservation Project 2009 (RFP No. 03460-09)

We preserved 2,066 volumes of deed records, 131 volumes of deed of trust and indexes, 94 volumes of probate minutes and indexes, 29 volumes of birth records and indexes, 10 volumes of death records and indexes, 41 volumes of marriage records and indexes, 28 volumes of military discharges, and 820 miscellaneous books which consist of 1 or 2 volumes. These books were preserved first due to the severity of damage to the books by the flooding that occurred in 2007.

- Preservation Project 2013

The preservation project in 2013 included 105 volumes of Commissioners' Court Minutes, 8 volumes of Indexes to Commissioners' Court Minutes, 64 volumes of Commissioners' Court Orders, 23 volumes of Indexes to Chattel Mortgages, 2 volumes of Probate Criminal Minutes County Court and 6 volumes of Survey Records.

Previously, deed records from February 14, 1974 through end of December 1984 were indexed. Only the images were loaded to match the existing index. The indexing and verifying from January 1, 1963 through end of January 1973 for deed records has been completed.

County Clerk Records Archive-Records to be Preserved and Archived

Official Public Deed Records

- Real Property Records from 1985-1991 - Number of Books: 1856
