Re: County Road 339 Asphalt Road Project

Issue

Public Works received a written request from Christopher E. Easterling on CR 339 to be compensated for the value of their existing fence.

Background

In spring 2014, CR339 is scheduled to be paved as part of the "50 mile a year" asphalt paving program. Typically Public Works asks landowners on the affected road to donate a sliver of land adjacent to the road which allows us to widen it as well as pave it. This often requires us to move their fence back a predetermined distance at our expense.

Christopher Easterling owns a parcel of land on CR339 for which he donated 25 feet to allow for proper drainage and road width. Therefore, he has requested that Collin County reimburse him the value of replacing his fence in lieu of Public Works constructing a new fence further back from the road. The reimbursement amount is \$5,508.10 and covers the cost of materials only (see attached).

Funds have been budgeted to accommodate this request and Public Works requests Commissioners' Court consideration and approval to reimburse Mr. Christopher E. Easterling for the replacement of his fence.

Should you require additional information, contact me and I will respond accordingly.
