4.11 Evaluation: Evaluation of bids shall be based on the pickup price of material plus the distance between the McKinney Stockpile and the successful bidder's plant site multiplied by the current IRS mileage rate. This will only be taken into consideration when evaluating the responses to this IFB. The address of the McKinney Stockpile is 4361 North Central Expressway, McKinney, TX 75071. All bidders should include in their response the address of their plant at which Collin County will be picking up material. The County will enter the addresses into MapQuest.com to calculate the mileage for evaluation purposes.
