Re: Clean Fleet Policy Adoption

PW requests Commissioners Court's approval to adopt the Regional Transportation Council's new Clean Fleet Policy.

Collin County adopted the original Clean Fleet Vehicle policy in 2005 by virtue of Court Order 2005-893-11-08. The intent of the policy promoted strategies among government entities to improve air quality in the metropolitan area. Recently, the RTC approved a resolution to support a revised Clean Fleet Policy.

The new policy was restructured to reflect a goal oriented approach including sections for reducing emissions, reducing fuel consumption, and promoting partnerships with NCTCOG and the Dallas-Fort Worth Clean Cities Coalition. In addition, the revised policy expands applicability to private sector fleets and off road equipment. The County would commit to pursuing clean air policies as practical and annual reporting of goals. Adoption of the policy entitles each entity to compete for vehicle funding made available through the RTC.
