Re: Odyssey Optical Character Recognition Level 3 – Tyler Professional Services Agreement and Software Licensing

Information Technology is requesting approval of the Tyler Professional Services Agreement for consulting services and software licensing for the Odyssey Optical Character Recognition Level 3 Project. This software will allow Odyssey users to scan documents with text images and map those images to alphabetic characters. This project will also convert old scanned Odyssey documents into searchable PDF documents. New documents scanned directly into Odyssey or electronically filed documents such as attorney documents filed via the State of Texas eFileTexas.gov site will be automatically converted to searchable PDFs.

This agreement will be funded from account 443-0609-414.90-04/03JUS.
