SUBJECT: **Compa-ratio payments**

During the FY 2016 Budget Workshop, Commissioners' Court set aside funds to issue compa-ratio payments to employees who, due to criteria set for payments in years 2013 and 2014, may previously have been excluded. The attached list includes employees who were re-evaluated from the prior years' lists according to the revised criteria, and the associated payments previously not made. The total cost of these payments is just over \$226,000.
