Re: County Road 936 Partial Easement Release

County Road 936 in the northeast corner of the county is one of the remaining rock roads scheduled to be improved as part of the 50 Miles Program. As such, PW staff previously acquired all necessary Right-of-Way easements to upgrade the road. Recently, TxDOT contacted Public Works to request a small section of ROW at the intersection of CR 936 and State Highway 121 to facilitate their objective of expanding 121. The section in question is 175 ft. as depicted on the attached survey. To comply with their request, the partial release of easement form must be signed by a County representative. Public Works' intention of upgrading CR936 will suffer no detrimental effects from this action and will not be adversely impacted. I recommend the County sign the form.
