Re: Odyssey Biometric Fingerprint Scanning – Tyler Professional Services Agreement

Information Technology is requesting approval of the Tyler Professional Services Agreement for consulting services, hardware, and software licensing for Odyssey Biometrics Fingerprint Scanners to be used in conjunction with Tyler's Odyssey software.

Biometric fingerprint scanning devices will be deployed to various locations at the Jail for locating inmate records (current and historical), ensuring that duplicate records are not created in Odyssey at the time of booking, and verifying the identification of inmates at the time of release to ensure the correct inmate is actually released.

Funding for this project will be from project 03JUS in the amount of \$29,575.00.
