Subject: RE: FY 17 Continued Discretionary Grant Statement of Grant Award

Dear Judge Self,

Regarding the Statement of Grant Award emailed earlier today for the Mental Health Managed Counsel Program, please note that this is the final award for this project. When the original award was made, TIDC committed to four years of funding with the first year's expenditures reimbursable at 80%, the second year at 60%, the third year at 40% and the final year at 20%. Because the program got underway two months later than the start of the initial grant period, subsequent grants have been adjusted to provide the full four years of funding at the above referenced percentages. This final award represents two months of funding at 20%. Based on our recent site visit we were very pleased that Collin County has developed such a highly effective and successful program. We look forward to continuing to work with Collin County as a model for other jurisdictions that can emulate this program. Please let me know if you have any questions.

Thank you,
