Re: Engineering Services Agreement with CH2M Hill, Inc. for Schematic Design of the Collin County Outer Loop from the Denton/Collin County Line East to F.M. Highway No. 2478 (Custer Road)

The Engineering Department requests Commissioners Courts authorization to enter into an Engineering Services Agreement with CH2M Hill, Inc. for schematic design of the Collin County Outer Loop from the Denton/Collin County Line east to F.M. Highway No. 2478 (Custer Road).

Their scope and fee include development of schematic plans for the future main lanes and service roads, including the location of on-off ramps, configuration of roadway intersections, cross streets etc. In addition, a final alignment and right-of-way documents will be developed for the section between State Highway No. 289 (Preston Road) and F.M. Highway No. 2478, allowing us to proceed with parcel acquisition as funding becomes available.

Their proposed fee for these services is \$1,096,159.40. If accepted, further approval of a budget amendment moving \$1,100,000.00 from account number 599-7730-680.92-50 to account number 599-7730-680.92-50 OLSCH1 is necessary to establish project code/account.

The proposed scope, fee schedule and a location map are attached for your review and we will be available to answer any questions you might have regarding this project.
