Re: Data Domain Backup System Expansion Award

The Collin County Information Technology department is requesting Commissioner Court approval to award the procurement of equipment and professional services of a Dell Technologies EMC Data Domain ES30 Expansion Shelf to Unique Digital, Inc. The quote submitted by Unique Digital, Inc. is the lowest cost submission for the selected solution. This award is crucial to the county efforts to continue providing data backup and restoration services.

The 30FIN project is funding this request. The Dell Technologies EMC Avamar/Data Domain platform is the current county data backup standard.
