Re: Award of Annual Contract for Local Voice, Long Distance and Internet Services to AT&T Corp

The Collin County Information Technology department requests approval for award of the Annual Contract for Local Voice, Long Distance and Internet Services to AT&T Corp per DIR contract DIR-TEX-AN-NG-CTSA-005. We are also requesting the approval to upgrade the internet from 100MB to 1GB. AT&T is our current internet service provider and our failover internet service provider. We must purchase this circuit from AT&T to maintain the failover capabilities. If for some reason Collin County's primary internet service circuit fails, we are able to failover to the current backup AT&T circuit.

The upgrade is part of the adopted budget and the funds will come out of account code 001-0629-414.80-11.
