

## InterOffice Memorandum

November 17, 2017

To: Michalyn Rains/Purchasing Agent  
From: Dan James/Facilities Director  
RE: Amendment to Construction Standards

---

Upon approval of a FY2018 PIP to replace 55 rooftop HVAC units, it is my recommendation to amend the Construction Standards, Court Order No. 2010-993-12-06, to allow for the addition of a Preferred Manufacturer, Carrier ICP AC Systems, specifically for the 900 and 920 Buildings in Plano.

This type of unit is compatible with our current Carrier I-Vu Energy Management Control System. Carrier I-Vu is the software program that runs and communicates with our existing energy management system in the Plano Facilities and will alleviate the need for additional hardware and software; and will allow Facilities to maintain an inventory of parts.

If I can be of further assistance please do not hesitate to contact me at extension 5331.
