Re: CR943 Road Closure

On October 24, 2017, a County Public Works employee discovered an unauthorized road closure on the county maintained section of CR943. Periodically, a third party such as contractors or cities will request permission to temporarily close a county road. In the case of CR943, no such advance notification was received from the City of McKinney.

After observing the road closure, the county employee reported it to Public Works management who contacted McKinney officials. Representatives there explained the scope of the project and emailed the proper Road Closure form to Collin County Public Works.

McKinney is in the process of replacing two, 1000 ft. sections of the north-south and east-west portions of CR943 with a new concrete road and apron connecting it to the western and southern border of the Erwin Farms development. Since discovering the road closure, McKinney has shared the following details:

Original Plan Approval: June 2016  
Initial Road Closure: October 20, 2017  
Estimated Completion: End of year

The City of McKinney requests retroactive approval for the relocation of roadway and County Road tie-ins (transitions) adjacent to the Erwin Farms Development as shown on the attached exhibits.

Public Works will continue to monitor the project in an effort to expeditiously address and resolve any safety issues. Should you require additional information, please contact me and I will respond accordingly.
