From: Clarence Daugherty, P.E., Director of Engineering

Re: Contract Amendment No. 1 with Halff Associates, Inc. for
Dallas North Tollway (DNT) Phase 4 – Westerly (South Bound) Service
Road between U.S. Highway 380 and F.M. Highway 428
Agreement No. 2016-181 (Bond Project No. 070050)

The Engineering Department requests that the contract with Halff Associates Inc. for services relating to the DNT westerly (south bound) service road be increased by \$694,290.

The bulk (\$655,000) of this increase is for construction phase services which will provide part time construction inspection and construction administration support, with the balance (\$39,290) requested for design modifications that would accommodate construction of a pedestrian sidewalk adjacent to the bridge across Doe Branch.

The City of Celina has requested that this sidewalk be included as part of the bridge construction to accommodate future development. In return, Celina has offered to assume maintenance of the Collin County Outer Loop service roads constructed within their jurisdiction.

Commissioners Courts approval of this contract amendment is requested and I will be available to answer any questions you might have regarding this matter.
