

Collin County Information Technology Equipment Standards Justification

The following manufacturers/vendors have been identified as the standard supplier of technology equipment within the county for specific technology areas. While this list of standards will be used to guide procurement, it does not necessarily preclude the IT department from soliciting bids based on generic specifications where the use of a specific manufacturer is not necessary or where a specific non-standard manufacturer is required for a specific line of business. This list is to serve as a guide and may be amended, by future court order, as technology or market conditions dictate.

Technology Area: Audio Visual	
Manufacturer	Purpose
Sharp Corporation	LED HDTV systems for courtroom display. Selected as standard in court implementations for consistency and support needs.
Harman International Industries, Inc.	<p>Video system controllers, source devices, receivers, displays and programming language selected as a standard for consistency, support and programming reasons. Subsidiary companies are comprised of:</p> <ul style="list-style-type: none"> • AKG Acoustics • AMX <ul style="list-style-type: none"> ◦ Existing county staff are AMX certified technicians and AMX provides free training to government clients • Crown International • dbx Professional Products • DigiTech (DigiTech Whammy) • Harman Kardon • Infinity Systems • JBL (JBL Paragon) • Lexicon • Mark Levinson Audio Systems • Martin Professional • Soundcraft • Studer • Symphony Teleca
Biamp Systems Corporation	Audio server, amplifier, input card and output cards selected as a standard for consistency, support and programming reasons.
Williams Sound, LLC	Assisted listening system selected as a standard for consistency, support and programming reasons.

Technology Area: Backup Solution	
Manufacturer	Purpose
Dell Technologies Inc.	<p>The Dell EMC Infrastructure Solution Group provides support for existing Avamar and Data Domain hardware and software used for data file and virtual server “tapeless” disk based backup processes. Subsidiary companies are comprised of:</p> <ul style="list-style-type: none"> • Dell Client Solutions Group • Dell EMC Infrastructure Solutions Group • Dell EMC Services • RSA • Virtustream • Pivotal • SecureWorks • VMware
NetApp, Inc.	Existing hardware and software solution used to ensure image files and image metadata copies are available for disaster recovery needs.
Technology Area: Storage	
Manufacturer	Purpose
NetApp, Inc.	Existing storage solutions at the county are based on NetApp devices (IBM N-Series systems are NetApp based solutions which are no longer sold by IBM); continued use of NetApp based solutions selected for consistency of support operations.
Dell Technologies Inc.	<p>The Dell EMC Infrastructure Solution Group provides support for existing storage solutions for enterprise SQL Server and data backup; continued use of EMC based solutions selected for consistency of support operations. Subsidiary companies are comprised of:</p> <ul style="list-style-type: none"> • Dell Client Solutions Group • Dell EMC Infrastructure Solutions Group • Dell EMC Services • RSA • Virtustream • Pivotal • SecureWorks • VMware
Technology Area: Servers	
Manufacturer	Purpose
Cisco Systems, Inc.	Cisco UCS servers selected as the standard for current and future server needs within the county based on leading market share position, support of Cisco switching within the server, familiarity of county technical staff with the platform and IBM's withdrawal from the Intel market; UCS selection applies to both rack mount and blade servers.
Dell Technologies, Inc.	<p>The Dell EMC Infrastructure Solution Group provides VMware server virtualization software used within the county to support over 300 virtual servers running on existing hardware; selected based on industry market share and consistency of support operations and industry leader with a continued technological advantage delivered through increased use of management capabilities. Subsidiary companies are comprised of:</p> <ul style="list-style-type: none"> • Dell Client Solutions Group • Dell EMC Infrastructure Solutions Group

	<ul style="list-style-type: none"> • Dell EMC Services • RSA • Virtustream • Pivotal • SecureWorks • VMware
Microsoft Corporation	<p>Server class software enrolled in Microsoft Enterprise Agreement to provide upgrade and support privileges to the county. Development standards are based upon the MS technology stack.</p> <ul style="list-style-type: none"> • Server Operating Systems • SQL Server • SharePoint • .NET • Exchange • Internet Information Server • WSUS
Technology Area: End User Computing	
Manufacturer	Purpose
Lenovo Group Ltd.	Desktop PC manufacturer selected to be the standard based on recent review and demo of system manufacturers and familiarity of technicians to support the devices.
Dell Technologies Inc.	<p>PC manufacturer selected to be the desktop, laptop, and Windows tablet standard based on recent review and demo of system manufacturers and familiarity of technicians to support the devices. Subsidiary companies are comprised of:</p> <ul style="list-style-type: none"> • Dell Client Solutions Group • Dell EMC Infrastructure Solutions Group • Dell EMC Services • RSA • Virtustream • Pivotal • SecureWorks • VMware
Microsoft Corporation	PC class tablet used by mobile employees; replacing the deployment of laptops within the county.
Panasonic Corporation	Ruggedized laptop for use in patrol and other fleet vehicles; existing fleet equipment is equipped with required mounting brackets for Toshiba systems.
ViewSonic Corporation	Monitors used in the county and proven to work with various computing devices from touch screen capable applications for Odyssey Session Works to DisplayPort Multi-Stream applications with tablet based computing systems.
Microsoft Corporation	
Technology Area: Network	
Manufacturer	Purpose
Cisco Systems, Inc.	Existing network components selected as the standard for current and future server needs within the county based on leading market share position, familiarity of county technical staff with the platform; Existing county staff have various Cisco certifications.

Panduit Corporation	Networking management, connections and cabling required to maintain the 25yr Panduit horizontal cabling certification and warranty within most existing, and all new, county buildings.
F5 Networks, Inc.	Load balancing services delivered via appliance based systems.
