Re: IBM N-Series N6250 Network Attached Storage Replacement

The Information Technology department is requesting that Commissioners Court approve the contract award to Sirius Computer Solutions to replace the existing IBM N-Series Network Attached Storage system. IBM will end support for the system effective July 31, 2018. In order remain within Texas DPS CJIS requirements we must migrate to a platform supported by the vendor. This project will replace the N6250 storage capacity by expanding existing NetApp storage systems.

This project, budgeted under Project Code N06102, has funding available. The total award is \$251,113.93.
