

## **Rejected CCHC Grant for 2018-2019**

1. Plano Old City Cemetery Association Grant Request \$1,000 Grant denied  
The Association wanted to install small markers to identify unknown graves. The number of graves could be 60-100. In order for the project to occur, the completion of a separately funded grant project to identify all unmarked graves through the use of ground penetrating radar has not occurred. The budget needed to be clearer and this grant request may not be completed.
