Collin County will participate in FY2019.

We appreciate the new flat rate!

Dear Bret,

Please **reply all** with your approval to participate in the [Texas Imagery Service](#) for the FY2019 service period September 1, 2018 – August 31, 2019.

Additionally, DIR will host two webinars for you and your purchasing staff to attend for updated information about the billing process. The same webinar will be held on **July 11 2:00pm** and **July 18 10:00am**. Please ensure your purchasing staff receive this information.

Thank you,

Gayla

Subject: Texas Imagery Service - New Pricing

June 11, 2018

Collin County

Dear Bret,

Your agency participation in the first year of the [Texas Imagery Service](#) subscription contributed to a

well-designed option for aerial imagery delivery. In appreciation, the state of Texas has revised the pricing structure for regional and local government. Annual cost of the service is now one flat rate of **\$6,000** for local agencies and one flat rate of **\$15,000** for regional agencies in Texas. State agencies will remain in the tiered structure based on data usage.

The new annual cost for the **Collin County** is **\$6,177.00** for the FY2019* renewal due September 1, 2018. This total includes the 2.95% DIR fee. You may disregard the previous cost estimate you received in March 2018.

We hope you continue to find this service beneficial for your projects and everyday business needs. Please feel free to contact Gayla Mullins, TNRIS, via phone 512-463-7104 or email Gayla.Mullins@twdb.texas.gov if you have any questions.

Best regards,

The TNRIS/DIR Team

*The FY2019 service period is September 1, 2018 – August 31, 2019.
