Re: Agreement with ONCOR Electric Delivery Company LLC to Bury an Existing  
Overhead Electric Line Crossing the Collin County Outer Loop Right-of-Way  
Between the Dallas North Tollway and State Highway 289

ONCOR has an existing overhead electric line located in private easement that will need to be buried to accommodate construction of the Collin County Outer Loop between the DNT and State Highway 289.

Accordingly, ONCOR requires approval and execution of the attached Discretionary Service Agreement before beginning construction. Collin County is also required to pay \$174,722 in costs associated with removing the existing line and burying a new line.

Commissioners Court's approval and execution of the attached Agreement as well as authorization to pay costs associated with the line relocation is requested.

We will be available to answer any questions you might have regarding this matter.
